

# SAFE® GELDIET BREEDING

## Definition

Nutritional and hydration solution for rodent.  
With 76% water this gel is used to provide both diet and water source.  
Formulation based on standard diet SAFE A03.

## Product Purpose

For stressful periods: weak animals, post-operative, transport, breeding...  
To be used within the context of experimental protocols.  
Can be distributed as a complement to water and diets. It is a diet and water source highly palatable and digestible.

## Directions for Use

### DISTRIBUTION

#### Period

In accordance with protocol and animal welfare.  
Adaptation before use is recommended.

#### Method

- Ad libitum or rationed according to experimental protocols.
- Place the open cup on the cage floor, or remove the cup and place directly in the cage (feeder, floor, on cup or Petri dish).
- Keep possibly fresh water available. Can be portioned.

### DAILY CONSUMPTION

Varies depending on species, weight and age.

### STORAGE

Store in a clean, dry and cool place, protected from light.  
Store at 4 ° C.

### SHELF-LIFE from the date of production

12 months in the original packaging.  
After opening the cup, the product can be kept 5 days maximum.

## Product Presentation

\*All SAFE® diets are available with different packaging, irradiation and with analytical data on demand.  
Selected solutions of the most sold items from the SAFE® portfolio.

DIET	STANDARD PACKAGING
SAFE® GELDIET Breeding*	60 x 100 g - 30 cups in 2 plastic pouches
