

SAFE[®] GELDIET HIGH FAT

Definition

Nutritional and hydration solution for rodent.
With 60% water this gel is used to provide both diet and water source.
Formulated with purified ingredients.

Product Purpose

For stressful periods: weak animals, post-operative, transport, breeding...
To be used within the context of experimental protocols.
Can be distributed as a complement to water and diets. It is a diet and water source highly palatable and digestible.

Picture indicative only

Directions for Use

DISTRIBUTION

Period

In accordance with protocol and animal welfare.
Adaptation before use is recommended.

Method

- Ad libitum or rationed according to experimental protocols.
- Place the open cup on the cage floor, or remove the cup and place directly in the cage (feeder, floor, on cup or Petri dish).
- Keep possibly fresh water available. Can be portioned.

DAILY CONSUMPTION

Varies depending on species, weight and age.

STORAGE

Store in a clean, dry and cool place, protected from light.
Store at 4 ° C.

SHELF-LIFE from the date of production

12 months in the original packaging.
After opening the cup, the product can be kept 5 days maximum.
