PRODUCT DATA SHEET Release date: December 2024

SAFE[®] GELDIET TRANSPORT

Definition

Nutritional and hydration solution for rodent. With 63% water this gel is used to provide both diet and water source. Formulated with purified ingredients.

Product Purpose

For stressful periods: weak animals, post-operatory, transport, breeding...

To be used within the context of experimental protocols. Can be distributed as a complement to water and diets. It is a diet and water source higly pallatable and digestible.

Directions for Use

DISTRIBUTION Period In accordance with protocol and animal welfare. Adaptation before use is recomended.

Method

- Ad libitum or rationed according to experimental protocols.
- Place the open cup on the cage floor, or remove the cup and place directly in the cage (feeder, floor, on cup or Petri dish).
- Keep possibly fresh water available. Can be portioned.

DAILY CONSUMPTION

Varies depending on species, weight and age.

STORAGE

Store in a clean, dry and cool place, protected from light. Store at 4 $^\circ$ C.

SHELF-LIFE from the date of production

12 months in the original packaging. After opening the cup, the product can be kept 5 days maximum.

Product Presentation

*All SAFE[®] diets are available with different packaging, irradiation and with analytical data on demand. Selected solutions of the most sold items.
