

# SAFE® Spruce Bedding

## Sustainable and safe

### The perfect choice:

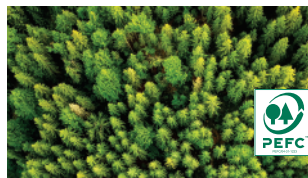

#### SAFE® FS14

- Softwood with antibacterial properties
- Highly dedusted
- Perfect moisture management

#### Guaranteed Availability

- Local sourcing, without dependence on imports
- Long-term secure supply of raw materials
- High storage capacity

#### Raw Materials from Sustainable Cultivation

- 100 % natural raw materials from PEFC-certified forestry
- Selected, untreated wood

#### Resource-saving Production

- Energy-efficient shredding
- Drying heat from sustainable biomass power plant
- 100 % use of the raw material in the production process

#### Sustainable Delivery Routes

- Short transport routes due to central location in Europe
- Regional resources to minimize the ecological footprint
