SAFE® Pelleted Diets Perfect in shape and composition

As your responsible partner in laboratory animal science, we place great importance on absolute safety through our certified processes. For many years, SAFE® has been dedicated to providing safe and high-quality diet solutions for research without compromise.

✓ **Energy Efficient & Cost-Effective**
Less energy consumption, less storage space required

✓ **Longer Shelf Life**
High moisture resistance thanks to sealed surface

✓ **Preserve Nutrient Integrity**
Consistent nutrient composition maintained through gentle pelleting process

✓ **Minimize Feed Waste**
Uniform texture prevents breakage and dust

✓ **Consistent Nutrition**
Optimal for uniform feeding, minimizing selective feed choice

✓ **Support Dental Health**
Natural wear of teeth due to firm consistency

High-Quality Diet Solutions Directly from the Manufacturer!
